Preface

This volume is the twelfth **Annual Catalogue** of Ontario Government publications and the first to be produced by the Geac 6000 computer of the Ontario Legislative Library. It is a cumulation of the twelve issues of the **Monthly Checklist** for 1983 with some additions and changes. Entries for serial titles indicate the issues published since those listed in the 1982 **Annual Catalogue**. Other items that were omitted from the 1983 issues of the **Monthly Checklist** or the previous **Annual Catalogue** have been included in order that the bibliography might reflect as nearly as possible the total publishing output of the Government ministries and agencies.

Press releases and publications of an internal nature have not been included. Reprints of articles written by government officials and appearing in non-government publications have not been included unless they bear the imprint of a ministry.

In order to ensure the continued availability of significant items of continuing interest some documents have been microfiched. In these cases the entry describes the original hard copy edition with the microfiche number and price appended. In cases where the Government published only a microfiche edition the cataloguing entry describes the microfiche format.

The material is arranged alphabetically under issuing body. Within each ministry there are alphabetically arranged subgroups for the publications of the branches and divisions of the ministry. Agency publications are listed directly under the agency name instead of being a subgroup of a ministry's documents as in previous years. The table of contents provides an overview of the ministries and agencies used as headings. Items are numbered sequentially within the **Annual Catalogue**. Access is facilitated by name/title and subject indexes. Most of the subject terms are derived from **Library of Congress Subject Headings** and **Canadian Subject Headings**. A major enhancement with the automated production is the fact that the index terms now refer to relevant publications by number instead of by the page on which they appear.

The publications distributed by Publications Services are marked with an asterisk. The price and availability of these documents were verified in June 1984.

The **Monthly Checklist** also listed items marked with two asterisks that were distributed directly by the issuing bodies, usually in limited quantities. Since no attempt has been made to determine whether any of these items is still available in hard copy, this ordering information has been deleted. Items that were microfiched will still be available in this format, as the entries indicate.

Those wishing to obtain copies of materials distributed directly by the issuing bodies should review current issues of the **Monthly Checklist** and order promptly. Many folders and other ephemeral materials are reprinted at intervals. Each serial title that is continuing publication has an open entry in the **Monthly Checklist** to correspond with the first issue of that title in the calendar year. Addresses are those of the main ministry offices unless otherwise indicated in the **Monthly Checklist**. The current edition of the **Government of Ontario Telephone Directory** provides full addresses and telephone numbers. A list of communications offices of Government ministries and agencies is appended.

Many publications listed in the **Annual Catalogue** are available for consultation at depository libraries for Ontario Government publications and a list of full depository libraries has

been included to assist the user in locating them. The term "full depository" means that the library automatically receives all publications in the **Monthly Checklist** which are designated by a "D". There are also selective depository libraries throughout the province, which receive any "D" items they specifically request. These libraries have not been listed, as their collections would be less complete. Publications that were depository items during the year 1983 are marked with a "D" as in the **Monthly Checklist**.

The **Ontario Government Publications Annual Catalogue 1983** was compiled and edited by the Checklist and Catalogue Service of the Legislative Library. The staff who worked on it are: Carolyn Barnes, Catalogue Librarian; Donna Stellar, Acquisitions Technician and Pulver Zajfman, Administrative Clerk with the part-time assistance of Alison Brown, Eveline Marron and Sue McClure.
